

HME Expands International Distribution of Pro Audio Products

New Distributor Introduces HME Wireless Intercom Systems to Turkey

San Diego, CA --- January 24, 2007 --- Sound professionals in Turkey can now conveniently purchase HM Electronics, Inc. (HME) award-winning wireless intercom systems directly from Nefan Ticaret Vesanayi, Ltd. (NEFAN)

"We are excited to have a distributor with the industry stature of NEFAN working with HME," said John Kowalski, Sales Manager of HME's Pro Audio Division. "In addition to delivering outstanding customer service, NEFAN is a proven market leader. They have a solid understanding of our products and we're confident that they will brilliantly succeed in bringing HME solutions to the Turkish market".

NEFAN will distribute the DX Series of Digital Wireless Intercom Systems and the award-winning PRO850 Wireless Intercom System to users throughout Turkey from its locations in Istanbul and Ankara. NEFAN can be reached at +90 212 288 41 39 or www.nefan.com.

HME's Digital DX Series Wireless Intercoms operate within the 2.4 GHz range, offers exceptionally clear, hands-free communications, and is immune to interference from systems operating in the UHF or VHF bands; no license is required. The DX Series employs frequency hopping spread spectrum with digital encryption for more secure communications. The BP200 belt pacs are the smallest and lightest available today. The WH200 ComLink wireless headset provides unheard of flexibility and convenience for wireless intercom operators.

The award-winning PRO850 allows production crew members to easily communicate with their manager and each other via wireless belt pacs --- without the hassle of dragging cables around. The PRO850 is used mainly by sound professionals in theatres and television broadcast companies; but its application also spans to the military, aerospace, stadium/concert events, churches, touring companies, schools, and other industrial companies.
